

FINDING WORK

LEADING MANUFACTURING GROUP INC.

The Company

Leading Manufacturing Group Inc. specializes in building tankage for the heavy oil industry. Its principals have been in the industry for over 30 years and expect that the company will be operational in Vermilion in February of 2011.

The company anticipates a labour force of between 60 and 70 trades and general labour positions.

The Work

The work will comprise stick, submerged metal arc and MIG welding, plate steel work and painting in an industrial environment.

The company prides itself on being a family orientated organization, with safety a foremost consideration.

The Ideal Candidate

The ideal candidate to work at Leading Manufacturing Group Inc. will have the following attributes:

- A strong work ethic
- Flexible and willing to learn
- Strong team player
- Safety conscious, first and foremost
- Tradesperson in the welding, painting and insulation trades with journeyman or apprenticeship status from an accredited institution such as NAIT, SAIT or Lakeland College.

General Labourers

- Assist trades crews
- Performance general clean up

Once hired labourers have completed their work, there is potential for them to be indentured as apprentices.

Machine Operators

- Trained on the job
- Machine work
- Bending rolls
- Fit up rolls
